Department of Public Health and Environment

Denver, CO 80246-1530

Dear Mr. Tarlton:

We have reviewed the proposed revisions to the final Colorado Rules and Regulations Pertaining to Radiation Control, 6CCR 1007-1, Part 18, "Licensing Requirements for Uranium and Thorium Processing," received by our office on November 8, 2013. These regulations were reviewed by comparison to the equivalent Nuclear Regulatory Commission (NRC) rules in 10 CFR Parts 40, 61, and 150 as identified in the enclosed State Regulation Status (SRS) Data Sheet. We discussed our review of the regulations with James Jarvis on January 10, 2014.

As a result of our review, we have 16 comments that have been identified in the enclosure. Please note that we have limited our review to regulations required for compatibility and/or health and safety. Under our current procedure, a finding that the Colorado regulations meet the compatibility and health and safety categories of the equivalent NRC regulation may only be made based on a review of the final Colorado regulations. However, we have determined that if your proposed revisions to the final regulations were adopted, incorporating our comments and without other significant change, they would meet the compatibility and health and safety categories established in the Office of Federal and State Materials and Environmental Management Programs (FSME) Procedure [SA-200](#).

We request that when the proposed revisions to the regulations are adopted and published as final regulations, a copy of the "as published" regulations be provided to us for review. As requested in FSME Procedure [SA-201](#), "Review of State Regulatory Requirements," please highlight the final changes, and provide a copy to Division of Materials Safety and State Agreements, FSME.

The SRS Data Sheet summarizes our knowledge of the status of other Colorado regulations, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the FSME website: <http://nrc-stp.ornl.gov/rulemaking.html>.

COMPATIBILITY COMMENTS ON COLORADO PROPOSED REGULATIONS

STATE SECTION		NRC SECTION	RATS ID	CATEGORY	SUBJECT and COMMENTS
1	18.2	§40.4 §61.2 <i>Definitions: Active maintenance</i>	N/A	H&S	<p>Definition: Active maintenance</p> <p>The term “active maintenance” is defined in Part 61.2 and is unique to the requirements for <i>Licensing Requirements for Land Disposal of Radioactive Waste</i> in Part 61. The term is not defined in 10 CFR 40 or in Appendix A to 10 CFR 40. The use of this term in context with the requirements in Part 40, Appendix A for 11e.(2) material can result in conflicts and duplications. Reference to “active maintenance” should be deleted from Section 18.2.</p> <p>Colorado needs to delete the term “active maintenance” from Section 18.2 in order to meet the Category H&S designation assigned to 10 CFR 61.2. and in order to avoid duplications, conflicts and gaps in accordance with the 1997 Policy Statement on Adequacy and Compatibility of Agreement State Programs.</p> <p>COMMENT STANDS from June 28, 2012, Letter.</p>
2	18.2 3.16	§40.4	N/A	A	<p>Definition: Residual radioactive material</p> <p>The phrase “residual radioactive material” should be deleted from Section 3.16 since this material is reserved to NRC’s jurisdiction.</p> <p>Colorado needs to make the above changes in order to meet the Compatibility Category A designation assigned to 10 CFR 40.4, Definitions, Residual radioactive material.</p> <p>PARTIAL COMMENT STANDS from June 28, 2012, Letter.</p>

3	18.2	§40.4	N/A	A	<p>Definition: Uranium milling</p> <p>Colorado needs to revise the phrase “byproduct material as defined in Part 1 of these regulations.” to “byproduct material as in definition (2) of 1.2.2 of these regulations.”</p> <p>Colorado needs to make the above changes in order to meet the Compatibility Category A designation assigned to 10 CFR 40.4, Definitions: Uranium milling.</p>
4	3.9.5.10	Part 40, Appendix A, II. Financial Criteria	N/A	C	<p>Appendix A, Criterion 10</p> <p>In Section 3.9.5.10 (4), Colorado’s regulations states, “The amount of funds to be provided by such long-term care warranties shall be based on Department-approved cost estimates and shall be enough that with an assumed six percent annual real interest rate, the annual interest earnings will be sufficient to cover to the annual costs of site surveillance by the Department, including reasonable administrative costs incurred by the Department, in perpetuity, subsequent to the termination of the license.” In NRC’s equivalent requirements in Criterion 10 states “...with an assumed 1 percent annual real interest rate...”</p> <p>The assumption of six percent in the above statement underestimates the amount of funds set aside for long term care creating a situation of having insufficient funds to cover the costs of surveillance. This is less restrictive than the NRC requirements in Criterion 10 and should be revised to address the essential objective of this requirement.</p> <p>Also, the regulation states that the Department would be responsible for site surveillance. Colorado has stated</p>

					<p>recently that the Department of Energy would be responsible for site surveillance. As written, this option is not an option under the Colorado regulations.</p> <p>Colorado needs to adopt the above changes in order to meet the Compatibility Category C designation assigned to Appendix A.</p> <p>COMMENT STANDS from June 28, 2012, Letter</p>

Colorado needs to replace the term "byproduct material" with the phrase "byproduct material as in definition (2) of 1.2.2." so as to clarify that Section 18 only applies to 11e.(2) byproduct material.</p> <p>Colorado needs to make the above change in order to meet the Compatibility Category C designation assigned to 10 CFR Part 40, Appendix A.</p>
