SUBJECT: CRCPD REVISED SUGGESTED STATE REGULATIONS, PART G

Dear Ruth McBurney:

We reviewed the proposed revisions to the Suggested State Regulations (SSRs) in Part G, "Use of Radionuclides in the Healing Arts", received by our office on January 22, 2024. These regulations were reviewed by comparison to the equivalent U.S. Nuclear Regulatory Commission (NRC) rules in Title 10 of the *Code of Federal Regulations* Part 35, as applicable. We discussed our review of the regulations with you on February 14, 2024.

As a result of our review, we have no comments. Please note that we have limited our review to regulations required for compatibility and/or health and safety. We have determined that the regulations, as proposed, meet the compatibility and health and safety categories established in the Office of Nuclear Material Safety and Safeguards (NMSS) Procedure SA-200, "Compatibility Categories and Health and Safety Identification for NRC Regulations and Other Program Elements."

We request that a copy of the final published SSR Part G be provided to us for review and federal concurrence. As requested in Office of Nuclear Material Safety and Safeguards (NMSS) Procedure SA-201, "Review of State Regulatory Requirements," please highlight the final changes.

The State Regulation Status (SRS) Data Sheet in the enclosure summarizes our knowledge of the status of other Conference of Radiation Control Program Directors (CRCPD) SSRs, as indicated. Please let us know if you note any inaccuracies or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the NRC website <https://www.nrc.gov/materials/toolboxes/regulation/crcpd-suggestions>.

If you have any questions regarding the review, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact my staff at AgreementStateRegs.Resource@nrc.gov.

Sincerely,

Signed by Giantelli, Adelaide
