

April 15, 2010

Melanie Rasmusson, Chief  
Bureau of Radiological Health  
Iowa Department of Health  
Lucas State Office Building, 5th Fl.  
321 East 12th Street  
Des Moines, IA 50319

Dear Ms. Rasmusson:

We have reviewed the proposed changes to the Iowa regulations, Administrative Code (IAC) 641-38 (136C) General Provisions for Radiation Machines and Radioactive Materials, 641-39 (136C) Licensure of Radioactive Materials, 641-40 (136C) Standards for Protection Against Radiation, 641-41(136C) Use of Radionuclides in the Healing Arts, and 641-45 (136C) Radiation Safety Requirements for Industrial Radiographic Operations, received by our office on February 25, 2010. These regulations were reviewed by comparison to the equivalent Nuclear Regulatory Commission (NRC) rules in 10 CFR Parts 19, 20, 30, 31, 32, 33, 35, 61, 150 and the requirements of the three amendments identified in the enclosed State Regulation Status (SRS) Data Sheet. We discussed our review of the regulations with Randal Dahlin on April 9, 2010.

As a result of our review, we have three comments that have been identified in the enclosure. Please note that we have limited our review to regulations required for compatibility and/or health and safety. Under our current procedure, a finding that the Iowa regulations meet the compatibility and health and safety categories of the equivalent NRC regulation may only be made based on a review of the final Iowa regulations. However, we have determined that if your proposed regulations were adopted, incorporating our comments and without other significant change, they would meet the compatibility and health and safety categories established in the Office of Federal and State Materials and Environmental Management Programs (FSME) Procedure [SA-200](#).

We request that when the proposed regulations are adopted and published as final regulations, a copy of the "as published" regulations be provided to us for review. As requested in FSME Procedure [SA-201](#), "Review of State Regulatory Requirements," please highlight the final changes, and provide a copy to Division of Materials Safety and State Agreements, FSME.

The SRS Data Sheet summarizes our knowledge of the status of other Iowa regulations, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the FSME website: <http://nrc-stp.ornl.gov/rulemaking.html>.

If you have any questions regarding the comments, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact Kathleen Schneider, State Regulation Review Coordinator at (301) 415-2320 ([kathleen.schneider@nrc.gov](mailto:kathleen.schneider@nrc.gov)) or Carmen Rivera at (787) 200-9521 ([carmen.rivera@nrc.gov](mailto:carmen.rivera@nrc.gov)).

Sincerely,

***/RA K.N. Schneider for/***

Terrence Reis, Deputy Director  
Division of Materials Safety and State Agreements  
Office of Federal and State Materials  
and Environmental Management Programs
