ALL AGREEMENT STATES, MICHIGAN, NEW JERSEY, PENNSYLVANIA, VIRGINIA  
ALL STATE LIAISON OFFICERS

UPDATE TO THE NUCLEAR REGULATORY COMMISSION (NRC) DECOMMISSIONING  
PUBLIC WEB PAGE (FSME-07-097)

**Purpose:** To inform the Agreement States of the newly updated and redesigned  
Decommissioning public web page.

**Discussion:** The old "Regulations, Guidance, and Communications" section of the public  
"Decommissioning of Nuclear Facilities" website has been recently updated. In May of 2007,  
the Region III Decommissioning Guidance Website was presented at the Decommissioning  
Counterpart Meeting in NRC RIV. One of the action items from that meeting was to incorporate  
the information and layout of the Region III website into the public web page. The updated page  
(available at: <http://www.nrc.gov/about-nrc/regulatory/decommissioning/reg-guides-comm.html>)  
is broken into three sub-pages: Regulations, Guidance, and Communications. The new  
Decommissioning public site also includes links to external web resources, such as the  
FUSRAP program, and an IAEA Waste Classification Guide. The Agreement States,  
Licensees, other government agencies, and the general public can now get more information  
about Decommissioning, and more easily search the wealth of Generic Communications that  
already exists online.
