U.S. NUCLEAR REGULATORY COMMISSION STRATEGIC PLAN FOR FISCAL YEARS  
2014 TO 2018 (STC-14-104)

**Purpose:** To provide notification of the publication of NUREG-1614, Volume 6, "U.S. Nuclear Regulatory Commission (NRC) Strategic Plan, Fiscal Years 2014-2018."

**Background:** The NRC is announcing the availability of the updated NUREG-1614, Volume 6, "NRC Strategic Plan, Fiscal Years 2014-2018". It provides a blueprint for the agency to plan, implement and monitor the work needed to achieve the NRC's mission for the next 4 years.

**Discussion:** The current and historical strategic plans can be found on the NRC's Web site: <http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1614/>. The NRC's mission is to license and regulate the civilian use of radioactive materials to protect public health and safety, promote the common defense and security, and protect the environment. To accomplish this mission, the agency set two strategic goals: to ensure the safe use and to ensure the secure use of radioactive materials. The mission and strategic goals have been revised to highlight the agency's focus on the safe and secure use of radioactive materials.
