

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

(STC-15-007, February, Other, Personnel Changes)

February 20, 2015

ALL AGREEMENT STATES

CHANGES IN THE AGREEMENT STATE PROGRAMS BRANCH – PERSONNEL CHANGES
(STC-15-007)

Purpose: To provide the Agreement States with changes to personnel in the Agreement State Programs Branch (ASPB).

Discussion: Please join me in welcoming Mr. Chris Einberg as the new Branch Chief of ASPB. Prior to joining ASPB, Mr. Einberg was the Chief of the Medical Safety and Events Assessment Branch. Mr. Einberg joined the U.S. Nuclear Regulatory Commission (NRC) in 2006 as a Senior Project Manager and was responsible for managing security activities associated with materials licensees. Prior to joining the NRC, Mr. Einberg worked for the Department of Energy's Office of Civilian Radioactive Waste Management where he was the Safeguards and Security Program Manager for the proposed Yucca Mountain repository. Mr. Einberg has a Bachelor of Science degree in Mechanical Engineering from the University of Maryland, and a Masters of Engineering Administration degree from George Washington University.

I would like to thank Mr. Duncan White for his leadership of ASPB for the last eight years. Mr. White will continue to be part of ASPB as a Senior Health Physicist. His experience, knowledge and expertise in many aspects of the Agreement State Program will be important as the program continues to make a number of enhancements. I have also asked Mr. White to continue to play a lead role on the Standing Compatibility Committee.

If you have any questions regarding this correspondence, please contact me or the individual named below:
