NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

(FSME-14-087, September, Program, 10 CFR Part 20)

September 19, 2014

ALL AGREEMENT AND NON-AGREEMENT STATES
STATE LIAISON OFFICERS

PUBLIC MEETINGS/WEBINARS TO DISCUSS POTENTIAL CHANGES TO 10 CFR PART 20,
STANDARDS FOR PROTECTION AGAINST RADIATION (FSME-14-087)

Purpose: To inform the Agreement States, Non-Agreement States, and State Liaison Officers of an opportunity to participate in a series of upcoming public meetings/webinars. The public meetings/webinars are hosted by the U.S. Nuclear Regulatory Commission (NRC) on potential changes to its regulations in Title 10 of the *Code of Federal Regulations* (10 CFR) Part 20, "Standards for Protection Against Radiation."

Background: As discussed in FSME-14-076, "Opportunity to Comment on Potential Changes to 10 CFR Part 20, Standards for Protection against Radiation," dated July 30, 2014, the NRC published in the *Federal Register* an Advance Notice of Proposed Rulemaking (ANPR) for potential changes to 10 CFR Part 20 (79 FR 43284 dated July 25, 2014). The notice is available at: <http://www.gpo.gov/fdsys/pkg/FR-2014-07-25/pdf/2014-17252.pdf>.

Discussion: The NRC staff has planned a series of public meetings/webinars to discuss the ANPR. These meetings will provide a forum for the NRC staff to discuss the issues and questions identified in the ANPR with external stakeholders and its regulatory partners and to receive information relative to the development of a draft regulatory basis for potential revisions to 10 CFR Part 20. At least 10 calendar days prior to each meeting, a notice will be posted on the NRC's public meeting website at: <http://www.nrc.gov/public-involve/public-meetings/index.cfm>. Please visit this website for the most current information relative to the upcoming meetings.

All of the public meetings will be physically located at the NRC complex at 11555 Rockville Pike, Rockville, Maryland. For those participating by webinar, please call at least 5-10 minutes prior to the start time. This will allow time to speak to the operator and to be connected.
