ALL AGREEMENT STATES

REQUEST FOR STATISTICAL INFORMATION – ACTIVE RADIOACTIVE MATERIAL
LICENSES (FSME-14-093)

Purpose: To update the count of radioactive material specific licenses currently active in the Agreement States.

Background: Annually, the U.S. Nuclear Regulatory Commission (NRC) requests that all Agreement States provide the number of specific radioactive material licenses currently active under their jurisdiction. This information has been used to maintain accurate information for use in public documents developed by NRC staff.

Discussion: Enclosed is the latest count of specific material licenses in each Agreement State, as of November 18, 2013. Please review this data and revise your State's total to accurately reflect the number of specific material licenses currently active under your State jurisdiction. We would appreciate your email response to the point of contact below within 30 days of the date of this letter.*

If you have any questions regarding this communication, please contact the individual named below:

Active Agreement State and NRC Licenses

*This information request has previously been approved by OMB 3150-01029 and was resubmitted to OMB for review of continued approval of information collection. The estimated burden per response to comply with this voluntary collection is approximately 8 hours. Send comments regarding the burden estimate to the Records and Information Services Branch (T-5F53), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, or by Internet e-mail to infocollects.resource@nrc.gov, and to the Desk Officer, Office of Information and Regulatory Affairs, NEOB-10202 (3150-0200), Office of Management and Budget, Washington, DC 20503. If a means used to impose an information collection does not display a currently valid OMB control number, the NRC may not conduct or sponsor, and a person is not required to respond to, the information collection.
