

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D.C. 20555-0001

December 16, 2015

ALL AGREEMENT STATES, VERMONT, WYOMING

NOTIFICATION TO PASS ALONG INFORMATION ON ADDITIONAL PROTOCOL FORMS TO  
LICENSEES TO ASSIST IN MEETING INTERNATIONAL ATOMIC ENERGY AGENCY  
TREATY OBLIGATIONS (STC-15-086)

**Purpose:** To notify the States to pass along information on Additional Protocol forms to their licensees to assist the Federal Government in meeting its treaty obligations to the International Atomic Energy Agency (IAEA).

**Background:** In order for the United States (U.S.) to meet its international treaty obligations pursuant to the Additional Protocol, the U.S. Nuclear Regulatory Commission (NRC) is required to collect information on nuclear-fuel cycle related activities in the U.S. Timely submission of Additional Protocol forms assists the Federal Government in meeting its treaty obligations to the IAEA.

**Discussion:** To ensure that the U.S. can meet the international reporting deadline, the NRC would like to underscore the importance of submitting the forms in accordance with title 10 of the *Code of Federal Regulations* 75.11(c) by the deadline of **January 31** to the Department of Commerce's Bureau of Industry and Security, which serves as the central forms recipient of the Federal Government. All Additional Protocol forms and handbooks can be found at <http://www.AP.gov>. Should an NRC or Agreement State licensee not submit the required forms by the January 31 deadline, the NRC will disposition non-compliances in accordance with the NRC Enforcement Policy (Agencywide Documents Access and Management System Accession No. ML15029A148), which includes the possibility of a Notice of Violation issued to the licensee. The attached enclosure contains the list of licensees that, to date, should report under the Additional Protocol.

Should you have any questions on the Additional Protocol reporting requirement, we encourage you to contact either of the following individuals below:

Hilary Lane – International Safeguards Analyst; [hilary.lane@nrc.gov](mailto:hilary.lane@nrc.gov)

David Hanks – Sr. International Safeguards Analyst; [david.hanks@nrc.gov](mailto:david.hanks@nrc.gov)

If you have any questions regarding this communication, please contact me at 301-415-3340 or the individual named below:
