

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

February 3, 2017

ALL AGREEMENT STATES, WYOMING, VERMONT

PROPOSED RULE - FEE RECOVERY FOR FISCAL YEAR 2017 (STC-17-015)

Purpose: This is to inform you that the U.S. Nuclear Regulatory Commission (NRC) has published a proposed rule for comment to modify Title 10 of the *Code of Federal Regulations* (10 CFR) Parts 170 and 171 regarding the licensing, inspection and annual fees to recover approximately 90 percent of its Fiscal Year (FY) 2017 budget authority.

Background: These amendments are reviewed annually to support budget needs to implement the Omnibus Budget Reconciliation Act of 1990, as amended, which mandates that NRC recover through fees approximately 90 percent of its FY 2017 budget authority less the amount appropriated from the Waste Incidental to Reprocessing and generic homeland security activities. The proposed rule does change 10 CFR part 170 fees currently assessed to those Agreement State licensees who perform work in Non-Agreement States under the reciprocity provisions of 10 CFR 150.20. For FY 2017, the reciprocity fee is \$1,800, a reduction of \$100 from the FY 2016 fee. The proposed rule was published in the *Federal Register* on January 30, 2017 (Volume 82, Number 18, pages 8696-8718). Although the comment period closes on March 1, 2017, comments received after this period will be considered if practicable.

Discussion: The proposed rule is no longer being printed, but is available on the Federal eRulemaking Portal at: <http://www.Regulations.gov>; and search under Docket ID: NRC-2016-0081. The reciprocity fee can be found at the end of the Schedule of Materials Fees on pages 8712 of the January 30, 2017, *Federal Register* notice. Please inform your licensees of the proposed fee rule and how they can access it.
