December 4, 2020

ALL AGREEMENT STATES, NRC NMSS, NRC REGIONS I, III AND IV

NOTIFICATION OF THE OPPORTUNITY TO COMMENT ON SA-112 EMERGENCY
SUSPENSION (STC-20-080):

Purpose: This communication serves to inform the National Materials Program (NMP) community that the Office of Nuclear Material Safety and Safeguards (NMSS) State Agreements (SA) procedure SA-112, *Emergency Suspension of 274b. Agreement*, has been revised and to solicit comments from the NMP community prior to SA-112 being issued.

Background: SA-112, *Emergency Suspension of 274b Agreement*, describes the process the NRC will use to temporarily suspend an Agreement State's 274b. agreement. This action will take place in the unlikely event an emergency affects an Agreement State program and requires immediate action to protect public health, safety, and security. SA-112, *Emergency Suspension of 274b. Agreement*, is subject to routine update and was previously revised in March 2014. This procedure is not part of the Integrated Materials Performance Evaluation Program (IMPEP) nor has it ever been implemented.

Discussion: This letter notifies the NMP community that SA-112 has been revised and issued for comment. Comments are due by 60 days from date of letter. Once the comments have been resolved, the procedure will be finalized and issued. SA-112 is not part of IMPEP and as a result will not be an 'interim' procedure. The revised procedure is being issued to the NMP community to solicit comments before finalizing SA-112¹
