NOTIFICATION OF AVAILABILITY OF THE NUCLEAR MATERIAL EVENTS DATABASE
FISCAL YEAR 2021 ANNUAL REPORT (STC-22-056)

Purpose: To inform the Agreement States of the availability of the Nuclear Material Events Database (NMED) Annual Report for Fiscal Year (FY) 2021.

Background: The U.S. Nuclear Regulatory Commission's (NRC) NMED contains records of events involving nuclear material reported to the NRC by NRC licensees, Agreement States, and non-licensees. The reported events are classified based on reporting requirements defined by Title 10 of the *Code of Federal Regulations*.

Discussion: On an annual basis, the NMED writes a report which summarizes the events and overall trends from the previous fiscal year. This NMED annual report provides operating experience, and trending, in support of the NRC's goal of identifying generic issues. The FY2021 NMED Annual Report is publicly available and can be found on the home page of the NMED website (<https://nmed.inl.gov>) and also in the Agencywide Documents Access and Management System (ADAMS) Accession Number [ML22049B538](#).
