

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

November 15, 2022

ALL AGREEMENT STATES, CONNECTICUT, INDIANA

REVISION OF THE CHRONOLOGY OF THE U.S. NUCLEAR REGULATORY COMMISSION (NRC) AMENDMENTS INCLUDING SUMMARY OF CHANGE DOCUMENT FOR MISCELLANEOUS CORRECTIONS, 10 CFR PARTS 20, 35, 50, 51, 52, 72, 73, 110, AND 150 [RATS ID 2022-2] (STC-22-063)

Purpose: To provide the Agreement States with the Chronology of the U.S. Nuclear Regulatory Commission (NRC) Amendments including RATS ID 2022-2.

Background: The U.S. Nuclear Regulatory Commission (NRC) is amending its regulations to make miscellaneous corrections. These changes include correcting typographical errors, removing obsolete language, inserting missing language, and updating the telephone number for the NRC's Region IV office.

Discussion: The final rule, published on November 14, 2022, is posted in the *Federal Register* (FR), ([87 FR 68028](#)). The Chronology of NRC Amendments, including RATS ID 2022-2, as maintained by the Office of Nuclear Material Safety and Safeguards (NMSS) can be found on the NMSS website at: <https://scp.nrc.gov/regresources.html>. The chronology is for your use to plan rulemaking actions that are needed to satisfy the compatibility and health and safety category designations of the NRC regulations. This document will also be used by the Integrated Materials Performance Evaluation Program (IMPEP) teams during upcoming program reviews.

The Standing Committee on Compatibility reviewed the rule and determined that the provisions in 10 CFR Parts 20, 35, and 150 of this rulemaking are a matter of compatibility with the Agreement States. However, since these regulations are designated as a D compatibility category (for Appendix D to Part 20, and 35.13(b)), and NRC compatibility category (for 150.15), the Committee determined that the Agreement States do not have to adopt these provisions for compatibility purposes, nor do they need to submit them for a compatibility review.

In addition, a Summary of Change document for the November 14, 2022, amendment can be found on the NMSS website at: https://scp.nrc.gov/rss_regamendments.html for information purposes. This summary is for your use to identify the changes to the *Code of Federal Regulations* text as well as the compatibility categories associated with those changes. As stated above, these regulations are not required for compatibility purposes and therefore there is no due date for adoption by the Agreement States.
