

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

February 17, 2026

ALL AGREEMENT STATES
INDIANA, WEST VIRGINIA

REVISION OF THE CHRONOLOGY OF THE U.S. NUCLEAR REGULATORY COMMISSION (NRC) AMENDMENTS INCLUDING SUMMARY OF CHANGE DOCUMENT FOR THE SUNSET RULE, 10 CFR Parts 2, 19, 20, 21, 25, 26, 30, 31, 32, 34, 35, 36, 37, 39, 40, 50, 51, 52, 54, 55, 60, 61, 62, 63, 70, 71, 72, 73, 74, 75, 76, 81, 95, 110, 140, 150, 160, 170, and 171 [RATS ID 2026-1] (STC-26-010)

Purpose: To provide the Agreement States with the Chronology of the NRC Amendments including RATS ID 2026-1.

Background: The NRC is amending its regulations to insert a conditional sunset date into certain regulations in response to Executive Order (E.O.) 14270, "Zero-Based Regulatory Budgeting to Unleash American Energy."

Discussion: The direct final rule was published for public comment on December 3, 2025, in the *Federal Register* (FR) ([90 FR 55621](#)) and confirmed on January 8, 2026 ([91 FR 553](#)) with one adverse comment impacting 10 CFR Part 50. Therefore, this rulemaking became effective on January 8, 2026. The rulemaking inserts a conditional sunset date (January 8, 2027) into regulations that were identified to be duplicative, seldomly used, or outdated. The Chronology of NRC Amendments, including RATS ID 2026-1, as maintained by the Office of Nuclear Material Safety and Safeguards (NMSS) can be found on the NMSS website at: <https://www.nrc.gov/materials/toolboxes/regulation.html>. The chronology is for your use to plan rulemaking actions that are needed to satisfy the compatibility and health and safety category designations of the NRC regulations. This document will be used by the Integrated Materials Performance Evaluation Program teams during program reviews.

Except for 10 CFR 34.87, which is compatibility category C, all identified regulations that are a matter of compatibility for Agreement States, are compatibility category D. Given the administrative nature of these changes to insert sunset language, the Agreement States do not have to adopt this provision for compatibility purposes, nor do they need to submit them for a compatibility review. However, Agreement States should consider any impacts that the sunset of these requirements will have on their existing regulatory language, especially if the State has incorporated any of these regulations by reference.
