

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

June 4, 2014

Ms. Ruth E. McBurney
Executive Director
Conference of Radiation Control
Program Directors, Inc.
1030 Burlington Lane, Suite 4B
Frankfort, KY 40601

Dear Ms. McBurney:

In the e-mail dated May 27, 2014, Bruce Hirschler of your staff requested that the Nuclear Regulatory Commission (NRC) review the proposed revisions to "Part H", "Radiation Safety Requirements for Non-Medical Radiation Generating Devices." to the Suggested State Regulations for Control of Radiation.

We believe these regulatory requirements are important, however, given that "Part H" is outside of NRC's regulatory authority, we did not conduct a review of the proposed revisions to this model regulation. As is our practice, NRC does not provide review or federal concurrence on Suggested State Regulations which are not within NRC regulatory jurisdiction. If you have any questions, please contact Kathleen Schneider, State Regulation Review Coordinator, at (301) 415-2320 (kathleen.schneider@nrc.gov).

Sincerely,

/RA JMMoses for/

Laura A. Dudes, Director
Division of Materials Safety and State Agreements
Office of Federal and State Materials
and Environmental Management Programs
