Ms. Ruth E. McBurney
Executive Director
Conference of Radiation Control
Program Directors, Inc.
1030 Burlington Lane, Suite 4B
Frankfort, KY 40601

Dear Ms. McBurney:

In your letter dated July 19, 2016, you requested that the U.S. Nuclear Regulatory Commission (NRC) provide federal concurrence for *Part H* to the Suggested State Regulations for Control of Radiation, Radiation Safety Requirements for Non-Healing Arts Radiation Generating Devices (RGD).

We believe these regulatory requirements are important, however, given that *Part H* is outside of NRC's regulatory authority, we did not conduct a review of the final regulations. As is our practice, NRC does not provide federal concurrence on Suggested State Regulations which are not within NRC regulatory jurisdiction.

If you have any questions, please contact Michelle Beardsley, State Regulation Review Coordinator at (267) 884-2305, (michelle.beardsley@nrc.gov).

Sincerely,

/RA/

Daniel Collins, Director
Division of Material Safety, State, Tribal
and Rulemaking Programs
Office of Nuclear Material Safety
and Safeguards
