Ms. Ruth E. McBurney
Executive Director
Conference of Radiation Control Program Directors, Inc.
Office of Executive Director
1030 Burlington Lane, Suite 4B
Frankfort, KY 40601

Dear Ms. McBurney:

We have reviewed the final revision to Part U, *Licensing Requirements for Uranium and Thorium Processing*, of the Suggested State Regulations (SRR), received by our office on March 10, 2015. These regulations were reviewed by comparison to the equivalent U.S. Nuclear Regulatory Commission (NRC) rules in 10 CFR Part 40. We discussed our review of the regulations with Bruce Hirschler on April 15, 2015.

As a result of our review, we have no comments. Please note that we have limited our review to regulations required for compatibility and/or health and safety. We have determined that the regulations as adopted meet the compatibility and health and safety categories established in the Office of Nuclear Material Safety and Safeguards (NMSS) Procedure SA-200, "Compatibility Categories and Health and Safety Identification for NRC Regulations and Other Program Elements." This letter is posted on the Office of Nuclear Material Safety and Safeguards' Web site: <http://nrc-stp.ornl.gov/rulemaking.html>.

If you have any questions regarding the review results, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact Michelle Beardsley, State Regulation Review Coordinator, at (610) 337-6942 (Michelle.Beardsley@nrc.gov) or Stephen Poy, at (301) 415-7135 (Stephen.Poy@nrc.gov).

Sincerely,

/RA/CEinberg for LDudes
