Dear Mr. Vinson:

We have reviewed the proposed changes to the Illinois regulations in 32 Ill. Adm. Code 330.20, 330.1100 and 330 Appendix F, received by our office on June 4, 2007. These regulations were reviewed by comparison to the equivalent Nuclear Regulatory Commission (NRC) rules in 10 CFR Parts 20 and 32 and the requirements of the two amendments identified in the enclosed State Regulation Status (SRS) Data Sheet. The response to the three issues identified in your letter is also enclosed. We discussed our review of the regulations with you on August 2, 2007.

As a result of our review, we have no comments. Please note that we have limited our review to regulations required for compatibility and/or health and safety. We have determined that the regulations, as proposed, meet the compatibility and health and safety categories established in the Office of Federal and State Materials
