

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

February 23, 2022

Kimberly S. Steves, Director
Kansas Department of Health & Environment
1000 SW Jackson, Suite 330
Topeka, KS 66612-1365

Dear Ms. Steves:

We have reviewed the three Kansas non-standard well logging license conditions received by our office on November 3, 2021, and as supplemented on November 19, 2021 and January 31, 2022. These requirements were reviewed by comparison to the equivalent U.S. Nuclear Regulatory Commission (NRC) rules as identified in the enclosed State Regulation Status (SRS) Data Sheet. We discussed our review of the legally binding requirements with you and David Lawrenz on February 9, 2022.

Based on the November 3 and 19, 2021, and January 31, 2022 emails and our discussions with you on February 9, we understand that Kansas is proposing to condition a newly licensed well-owner to allow possession of a well-logging source (300 mCi of Scandium-46) that cannot be recovered from the salt storage cavern. We also understand that the license is expected to be short-lived and the conditions temporary to allow the source to naturally decay to background levels that would allow the license to be terminated. We also understand that the well-owner became the licensee because the initial licensee, the well-logger, transferred the source to the well-owner. Finally, we also understand that Kansas plans to approve an exemption along with the three non-standard license conditions that will comply with Kansas' equivalent of 10 CFR 39.91, "Applications for exemptions," only after determining that the circumstances surrounding the request are urgent and temporary and that an exemption will not endanger life, property, or the common defense and security; and that it is otherwise in the public interest. Please inform us if any of our understandings are incorrect.

As a result of our review, we have three comments for consideration and inclusion in the license conditions for specificity, clarity, and adherence to health and safety requirements. These are identified in the enclosure. Please note that we have limited our review to the legally binding requirements required for compatibility and/or health and safety. We have not reviewed the Kansas licensing process for the newly licensed well-owner..

We request a copy of the three non-standard license conditions that are revised to address our comments be provided for our review. As requested in NMSS Procedure SA-201, "Review of State Regulatory Requirements," please highlight the location of any changes made by Kansas, in response to our comments, and provide a copy to Division of Material Safety, State, Tribal, and Rulemaking Programs, NMSS.

The SRS Data Sheet summarizes our knowledge of the status of other Kansas regulations, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the NMSS State Communication Portal: <https://scp.nrc.gov/rulemaking.html>.

If you have any questions regarding the comments, the compatibility and health and safety categories or any of the NRC regulations used in the review, please contact Michelle Beardsey, State Regulation Review Coordinator, at 301-415-0275 (michelle.beardsley@nrc.gov) or Jacqueline D. Cook at 817-200-1132 (jackie.cook@nrc.gov).

Sincerely,

White, Alfred signing on behalf
of Anderson, Brian
on 02/23/22

Brian C. Anderson, Chief
State Agreement and Liaison Programs Branch
Division of Materials Safety, Security, State
and Tribal Programs
Office of Nuclear Material Safety
and Safeguards

COMPATIBILITY COMMENTS ON KANSAS LEGALLY BINDING REQUIREMENTS

STATE SECTION		NRC SECTION	RATS ID	CATEGORY	SUBJECT and COMMENTS
1	NA	10 CFR Part 39	NA	various	<p align="center">10 CFR Part 39 exemption</p> <p>The license conditions submitted do not have equivalent provisions in NRC regulations or guidance. It appears that Kansas is using these to provide exemptions from certain 10 CFR Part 39 requirements. Kansas should specify which regulations they are exempting the licensee from for each 10 CFR Part 39 requirement, e.g., monitoring, source abandonment, cement plug, plaque.</p> <p>If you are restating tie down conditions in the license, please indicate.</p>
2	LC-1	10 CFR Part 39	NA	NA	<p align="center">License Condition 1</p> <p>Regarding the first license condition:</p> <p>Kansas should specify what monitoring is being requested for the licensee to perform if different from the requirements in the regulations, or cite the regulation/license condition which specifies the monitoring/survey requirements.</p> <p>Also, the wording of the license condition is confusing in that it states, "any action taken for each of the following:</p> <p>A. Annually thereafter for a period of three (3) years.</p> <p>B. After completion of Item A of this condition, the monitoring period may be extended to each five (5) years with approval of the department." Specify what actions you are requesting or referring to for A. and B. Do you mean to say "each" five years, or just "five years" since the radionuclide should have decayed to</p>

STATE SECTION		NRC SECTION	RATS ID	CATEGORY	SUBJECT and COMMENTS
					background levels by then? Also, the license condition should specify which regulation(s) you are exempting the licensee from.
3	LC-2	10 CFR Part 39	NA	NA	<p>License Condition 2</p> <p>You reference "Condition 13" in the second license condition; please submit this condition for our review.</p> <p>If this license condition is exempting the licensee from the requirements in Kansas' equivalent regulations to 10 CFR 39.77(a), it should require the licensee to notify the department "immediately", instead of "within 24 hrs." to meet the Compatibility Category C designation assigned to 10 CFR 39.77(a).</p> <p>Also, the license condition should specify which regulation(s) you are exempting the licensee from.</p>
