Mr. Jay Hyland, Manager
Division of Environmental Health
Radiation Control Program
286 Water Street, 11 SHS
Augusta, ME 04333-0011

Dear Mr. Hyland:

We have reviewed the proposed changes to the Maine regulations, Rules Relating to Radiation Protection, received by our office on November 18, 2008. These regulations were reviewed by comparison to the equivalent Nuclear Regulatory Commission (NRC) rules in 10 CFR Parts 19, 20, 30, 31, 32, 33, 35, 40, 61, 70, 71, 150 and the requirements of the 11 amendments identified in the enclosed State Regulation Status (SRS) Data Sheet. We discussed our review of the regulations with Shawn Seeley on December 19, 2008.

As a result of our review, we have 52 comments that have been identified in the enclosure. Please note that we have limited our review to regulations required for compatibility and/or health and safety. Under our current procedure, a finding that the Maine regulations meet the compatibility and health and safety categories of the equivalent NRC regulation may only be made based on a review of the final Maine regulations. However, we have determined that if your proposed regulations were adopted, incorporating our comments and without other significant change, they would meet the compatibility and health and safety categories established in the Office of Federal and State Materials and Environmental Management Programs (FSME) Procedure [SA-200](#).

We request that when the proposed regulations are adopted and published as final regulations, a copy of the "as published" regulations be provided to us for review. As requested in FSME Procedure [SA-201](#), "Review of State Regulatory Requirements," please highlight the final changes, and provide a copy to Division of Materials Safety and State Agreements, FSME.

The SRS Data Sheet summarizes our knowledge of the status of other Maine regulations, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the FSME website: <http://nrc-stp.ornl.gov/rulemaking.html>.

If you have any questions regarding the comments, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact Kathleen Schneider, State Regulation Review Coordinator at (301) 415-2320 (kathleen.schneider@nrc.gov) or Monica Orendi at (301) 415-3938 (monica.orendi@nrc.gov).

Sincerely,

/RA/

COMPATIBILITY COMMENTS ON *MAINE* PROPOSED REGULATIONS

STATE SECTION		NRC SECTION	RATS ID	CATEGORY	SUBJECT and COMMENTS
1	C.8.F	30.35	2003-1	H&S	<p>Financial assurance and recordkeeping for decommissioning</p> <p>Maine states in Part C 8.F. (1) that "... shall submit a decommissioning funding plan as described in paragraph (4) of this section.". However paragraph (3) is equivalent to 10 CFR 30.35(e) not paragraph (4) so this statement should read "... shall submit a decommissioning funding plan as described in paragraph (3) of this section.".</p> <p>Also Maine's regulation Part C 8.F(3) omits "Cost estimates must be adjusted at intervals not to exceed 3 years. The decommissioning funding plan must also contain a certification by the licensee that financial assurance for decommissioning has been provided in the amount of the cost estimate for decommissioning and a signed original of the financial instrument obtained to satisfy the requirements of paragraph (f) [Part C 8.F.(4)] of this section.".</p> <p>Maine needs to make the above changes to Part C 8.F in order to meet the Compatibility Category H&S designation assigned to 10 CFR 30.35(a) &(e).</p>
2	C.8.F	40.36	2003-1	H&S	<p>Financial assurance and recordkeeping for decommissioning</p> <p>Maine omits an equivalent section to 10 CFR 40.36 from their regulations. Maine needs to add financial assurance regulations for specific licenses authorizing the possession and use of more than 100 mCi of source material in a readily dispersible form and those authorizing possession and use of source material greater that 10 mCi but less than 100mCi in a readily dispersible form (10 CFR 40.36 (a) & b)</p>

STATE SECTION		NRC SECTION	RATS ID	CATEGORY	SUBJECT and COMMENTS
					<p>Also Maine's regulation Part C 8.F(3) omits "Cost estimates must be adjusted at intervals not to exceed 3 years. The decommissioning funding plan must also contain a certification by the licensee that financial assurance for decommissioning has been provided in the amount of the cost estimate for decommissioning and a signed original of the financial instrument obtained to satisfy the requirements of paragraph (f) [Part C 8.F.(4)] of this section."</p> <p>Maine needs to make the above changes to Part C 8.F in order to meet the Compatibility Category H&S designation assigned to 10 CFR 40.36(a), (b), &(d).</p>
3	C.8.F	70.25	2003-1	H&S	<p>Financial assurance and recordkeeping for decommissioning</p> <p>Maine's regulation Part C 8.F(3) omits "Cost estimates must be adjusted at intervals not to exceed 3 years. The decommissioning funding plan must also contain a certification by the licensee that financial assurance for decommissioning has been provided in the amount of the cost estimate for decommissioning and a signed original of the financial instrument obtained to satisfy the requirements of paragraph (f) [Part C 8.F.(4)] of this section."</p> <p>Maine needs to change Part C 8.F to address the above comment in order to meet the Compatibility Category H&S assigned to 10 CFR 70.25(e).</p>
4	L.1	71.13	2004-1	[B]	<p>Exemption of physicians</p> <p>Maine states in Part L 1. B that they are not incorporating 10 CFR 71.13(c) & (d) (previously approved packages) by reference. However 10 CFR 71.19 is previously approved packages and is a compatibility NRC which should not be incorporated by reference.</p>

STATE SECTION		NRC SECTION	RATS ID	CATEGORY	SUBJECT and COMMENTS
					Maine needs to remove 71.13(c) & (d) from Part L 1. B and replace it with 10 CFR 71.19 (the entire section not just (c) & (d)) in order to meet the compatibility category [B] designation assigned to 10 CFR 71.13.
5	L.1	71.14(b)	2004-1	NRC	<p>Exemption of low level materials</p> <p>Maine incorporates this section by reference.</p> <p>Maine needs to add 10 CFR 71.14(b) to the list of sections not incorporated by reference in Part L 1. B in order to meet the Compatibility Category NRC designation assigned to 10 CFR 71.14(b).</p>
6	L.1	71.22	2004-1	[B]	<p>General license: Fissile material</p> <p>Although Maine states in Part L 1.B that they are not incorporating 10 CFR 71.24 (general license, fissile material) by reference, it should be noted that 10 CFR 71.24 is not titled General license: fissile material and that 10 CFR 71.22 General license: fissile material, should be incorporated by reference.</p> <p>Maine needs to remove 10 CFR 71.24 (general license: fissile material) from Part L 1. B in order to meet the Compatibility Category [B] designation assigned to 10 CFR 71.22.</p>
7	L.1	71.47	2004-1	[B]	<p>External radiation standards for all packages</p> <p>Maine states in Part L 1. B that 10 CFR 71 Subpart E is not incorporated by reference. However 10 CFR 71.47 is in 10 CFR Subpart E and should be included by reference due to it being assigned a Compatibility Category [B].</p> <p>Maine needs to incorporate by reference 10 CFR 71.47 in order to meet the Compatibility Category [B] designation assigned to 10 CFR 71.47.</p>
