NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

B.J. Smith, Director
Division of Radiological Health
Mississippi State Department of Health
3150 Lawson Street
P.O. Box 1700
Jackson, MS 39215-1700

Dear Mr. Smith:

We have reviewed the proposed revisions to the Mississippi State Department of Health regulations Title 15, Part 21, Subpart 78 "Radiological Health", received by our office on November 7, 2017. These regulations were reviewed by comparison to the equivalent U.S. Nuclear Regulatory Commission (NRC) rules in 10 CFR Parts 19, 20, 30, 31, 32, 33, 34, 35, 36, 39, 40, 70, 71, and 150 as identified in the enclosed State Regulation Status (SRS) Data Sheet. We discussed our review of the regulations with you on February 20, 2018.

As a result of our review, we have 31 comments related to compatibility, and one comment not related to compatibility that have been identified in the enclosure. Please note that we have limited our review to regulations required for compatibility and/or health and safety. Under our current procedure, a finding that the Mississippi regulations meet the compatibility and health and safety categories of the equivalent NRC regulation may only be made based on a review of the final Mississippi regulations. However, we have determined that if your proposed regulations were adopted, incorporating our comments and without other significant change, they would meet the compatibility and health and safety categories established in the Office of Nuclear Material Safety and Safeguards (NMSS) Procedure SA-200, "Compatibility Categories and Health and Safety Identification for NRC Regulations and Other Program Elements."

We request that when the proposed regulations are adopted and published as final regulations, a copy of the "as published" regulations be provided to us for review. As requested in NMSS Procedure SA-201, "Review of State Regulatory Requirements," please highlight the final changes, and provide a copy to Division of Materials Safety, Security, State, and Tribal Programs, NMSS.

The SRS Data Sheet summarizes our knowledge of the status of other Mississippi regulations, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the NMSS State Communication Portal: <https://scp.nrc.gov/rulemaking.html>.

If you have any questions regarding the comments, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact Michelle Beardsley State Regulation Review Coordinator, at (267) 884-2305 (michelle.beardsley@nrc.gov), Dr. Lizette Roldán-Otero at (817) 200-1596 (lizette.roldan@nrc.gov), or Binesh Tharakan at 817-200-1116 (binesh.tharakan@nrc.gov).

Sincerely,

¹ Mississippi submitted a final version of these regulations during the time frame in which the proposed version of these regulations was being reviewed. Staff then continued the review with the submitted final regulations. The outgoing letter (ML013230431) incorrectly states that only the proposed regulations were reviewed.

² IMPEP Team: verify that Mississippi does not have any licensees subject to these regulations during each review.
