

September 26, 2005

Mr. Terry O'Clair, Director
Division of Air Quality
North Dakota Department of Health
1200 Missouri Avenue, Room 304
P.O. Box 5520
Bismarck, ND 58506-5520

Dear Mr. O'Clair:

We have reviewed the North Dakota proposed legally binding license condition to implement increased controls for certain licensees that possess certain radioactive materials in quantities of concern, received by our office on September 19, 2005. This license condition was reviewed by comparison to the equivalent NRC requirements that were transmitted from this office on September 2, 2005. We discussed our review of the license condition with Ken Wangler on September 19, 2005.

We have determined that the proposed North Dakota license condition, if issued without significant change, would meet the compatibility category 'B' designation in NRC Order EA-05-090.

We appreciate receiving the final license condition issued to effected North Dakota licensees.

The SRS Data Sheet summarizes our knowledge of the status of other North Dakota regulations and legal binding requirements, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, will be posted on the STP website:
<http://www.hsr.gov/nrc/rulemaking.htm>.

If you have any questions regarding the review, the compatibility categories, or any of the NRC requirements used in the review, please contact Mr. Andrew Mauer of my staff at 301-415-3962 or e-mail: anm@nrc.gov.

Sincerely,

IRA By KNSchneider Forl

Dennis K. Rathbun, Deputy Director
Office of State and Tribal Programs
