Dear Mr. O'Dowd:

We have reviewed the New Hampshire license conditions that were submitted to address Security Requirements for Portable Gauges, received by our office on October 31, 2007. These license conditions were reviewed by comparison to the equivalent NRC rules in 10 CFR Part 30 and the requirements of the one amendment identified in the enclosed State's Regulation Status (SRS) Data Sheet. We discussed our review of the license condition with Twila Kenna on November 20, 2007.

As a result of our review, we have no comments. We have determined that the New Hampshire license conditions meet the compatibility and health and safety categories established in the Office of Federal and State Materials and Environmental Management Programs (FSME) Procedure [SA-200](#).

The SRS Data Sheet summarizes our knowledge of the status of other New Hampshire regulations and legal binding requirements, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the FSME website:  
<http://www.hsrn.gov/nrc/rulemaking.htm>.

If you have any questions regarding the review results, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact Kathleen Schneider, State Regulation Review Coordinator at (301) 415-2320 (email: [kxs@nrc.gov](mailto:kxs@nrc.gov)) or Monica Orendi at (301) 415-3938 (email: [mlo1@nrc.gov](mailto:mlo1@nrc.gov)).
