

November 4, 2005

Mr. John Parker, Chief  
Radiation Control Bureau  
Field Operations Division  
Environment Department  
Harold S. Runnels Building  
1190 St. Francis Drive, Room S2100  
Santa Fe, NM 87505-4173

Dear Mr. Parker:

We have reviewed the New Mexico proposed legally binding license condition to implement increased controls for certain licensees that possess certain radioactive materials in quantities of concern, received by our office on November 2, 2005. This license condition was reviewed by comparison to the equivalent NRC requirements that were transmitted from this office on September 2, 2005. We discussed our review of the license condition with Mr. Stanley Fitch on November 2, 2005.

We have determined that the proposed New Mexico license condition, if issued without significant change, would meet the compatibility category 'B' designation in NRC Order EA-05-090.

We appreciate receiving the final license condition issued to effected New Mexico licensees.

The SRS Data Sheet summarizes our knowledge of the status of other New Mexico regulations and legal binding requirements, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, will be posted on the STP website:  
<http://www.hsr.d.ornl.gov/nrc/rulemaking.htm>.

If you have any questions regarding the review, the compatibility categories, or any of the NRC requirements used in the review, please contact Mr. Andrew Mauer of my staff at 301-415-3962 or e-mail: [anm@nrc.gov](mailto:anm@nrc.gov).

Sincerely,

***IRA By KNSchneider Forl***

Dennis K. Rathbun, Deputy Director  
Office of State and Tribal Programs
