Ms. Debra G. Shults, Director
Tennessee Department of Environment
and Conservation
Division of Radiological Health
William R. Snodgrass Tennessee Tower
312 Rose L. Parks Avenue, 15th Floor
Nashville, TN 37243

Dear Ms. Shults:

We have reviewed the final revisions to the Tennessee State regulations for Protection Against Radiation, received by our office on August 28, 2017. These regulations were reviewed by comparison to the equivalent U.S. Nuclear Regulatory Commission (NRC) rules and the requirements of Regulation Amendment Tracking System Identification Numbers (RATS IDs) 2013-2, 2015-1, 2015-2, 2015-3, 2015-4, and 2015-5 as identified in the enclosed State Regulation Status (SRS) Data Sheet. We discussed our review of the regulations with Andrew Holcomb on October 20, 2017.

As a result of our review, we have 17 comments that have been identified in the enclosure. Please note that we have limited our review to regulations required for compatibility and/or health and safety. We have determined that if these regulations are revised, incorporating our comments and without other significant change, they would meet the compatibility and health and safety categories established in the Office of Nuclear Material Safety and Safeguards (NMSS) Procedure SA-200, "Compatibility Categories and Health and Safety Identification for NRC Regulations and Other Program Elements."

We request that when you revise your regulations to address our comments, a copy of the "as published" regulations be provided to us for review. As requested in NMSS Procedure SA-201, "Review of State Regulatory Requirements," please highlight the location of any changes made by Tennessee, in response to our comments, and provide a copy to Division of Material Safety, State, Tribal, and Rulemaking Programs, NMSS. The SRS Data Sheet summarizes our knowledge of the status of other Tennessee regulations, as as stated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the NMSS State Communication Portal: <https://scp.nrc.gov/rulemaking.html>.

If you have any questions regarding the comments, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact Michelle Beardsley, State Regulation Review Coordinator, at 267-884-2305 (michelle.beardsley@nrc.gov) or Dr. Lizette Roldán-Otero, at 817-200-1596 (lizette.rolدان@nrc.gov).

Sincerely,

				<p>CFR Part 71 throughout their regulations in 0400-20-30, e.g., in sections .30(7)(b)(2) and (3). TN references Part 71 subpart H requirements. However, since TN has equivalent regulations for these Part 71 requirements, they should reference their regulations to avoid duplications.</p> <p>b) TN also incorporates by reference subparts A, G, and H of Part 71 which contain regulations that are designated Compatibility Category NRC and should not be adopted by the State (e.g., 71.11, 71.107 through 71.125, etc.).</p> <p>c) TN states in .30(b), "...has a quality assurance program approved by the Division as satisfying the applicable provisions of this Chapter." However, in .30(b)(3) it states, "Has submitted to the Division and received Division approval for a quality assurance program that satisfies the provisions found in subpart H of 10 CFR 71." These statements conflict with each other and are confusing. Also, as noted in the comment above, subpart H of 10 CFR Part 71 contains regulations that are designated as having a "NRC" Compatibility Category and cannot be adopted by the State. TN needs to delete references to 10 CFR Part 71 for which they have equivalent regulations,</p>
