

UNITED STATES  
**NUCLEAR REGULATORY COMMISSION**  
WASHINGTON, D.C. 20555-0001

October 16, 2018

Mr. Chuck Flynn, Manager  
Radiation Group  
Division for Regulatory Services  
Texas Department of State Health Services  
P.O. Box 149347  
Austin, TX 78714-9347

Dear Mr. Flynn:

We have reviewed the proposed revisions to the Texas Department of State Health Services regulations for Control of Radiation, 25 Texas Administrative Code (TAC), §289.251 relating to Exemptions, General Licenses, and General License Acknowledgements; §289.252 relating to Licensing of Radioactive Material; §289.253 relating to Radiation Safety Requirements for Well Logging Service Operations and Tracer Studies; §289.256 relating to Medical and Veterinary Use of Radioactive Material; and §289.257 relating to Packaging and Transportation of Radioactive Material, received by our office on August 21, 2018. These regulations were reviewed by comparison to the equivalent U.S. Nuclear Regulatory Commission (NRC) rules and Regulation Amendment Tracking System Identification Numbers (RATS IDs) 1993-1, 2007-2, 2007-3, 2011-2, 2012-4, 2013-2, 2015-3, 2015-4, and 2015-5 as identified in the enclosed State Regulation Status (SRS) Data Sheet. We discussed our review of the regulations with Charlotte Sullivan on October 12, 2018.

As a result of our review, we have six comments that have been identified in the enclosure. Please note that we have limited our review to regulations required for compatibility and/or health and safety. Under our current procedure, a finding that the Texas regulations meet the compatibility and health and safety categories of the equivalent NRC regulation may only be made based on a review of the final Texas regulations. However, we have determined that if your proposed regulations were adopted, incorporating our comments and without other significant change, they would meet the compatibility and health and safety categories established in the Office of Nuclear Material Safety and Safeguards (NMSS) Procedure SA-200, "Compatibility Categories and Health and Safety Identification for NRC Regulations and Other Program Elements."

We request that when the proposed regulations are adopted and published as final regulations, a copy of the "as published" regulations be provided to us for review. As requested in NMSS Procedure SA-201, "Review of State Regulatory Requirements," please highlight the final changes, and provide a copy to Division of Materials Safety, Security, State, and Tribal Programs, NMSS.

The SRS Data Sheet summarizes our knowledge of the status of other Texas regulations, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the NMSS State Communication Portal: <https://scp.nrc.gov/rulemaking.html>.

If you have any questions regarding the comments, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact Michelle Beardsley State Regulation Review Coordinator, at (301) 415-0275 [Michelle.Beardsley@nrc.gov](mailto:Michelle.Beardsley@nrc.gov) or Stephen Poy at (301) 415-7135 [Stephen.Poy@nrc.gov](mailto:Stephen.Poy@nrc.gov).

Sincerely,

***/RA Paul Michalak for/***

Sabrina Atack, Deputy Director  
Division of Materials Safety, Security, State  
and Tribal Programs  
Office of Nuclear Material Safety  
and Safeguards
