

UNITED STATES  
**NUCLEAR REGULATORY COMMISSION**  
WASHINGTON, D.C. 20555-0001

October 13, 2016

Mr. Kyle Wendtland, Administrator  
Wyoming Department of Environmental Quality  
Land Quality Division  
122 W. 25<sup>th</sup> Street  
Herschler 4W  
Cheyenne, WY 82002

Dear Mr. Wendtland:

We have reviewed the proposed revisions to the Wyoming regulations Chapter 1, General Provisions; Chapter 4, Licensing Requirements; Chapter 6, Financial Assurance; and Chapter 10, General Licensing; received by our office on July 8, 2016. These regulations were reviewed by comparison to the equivalent U.S. Nuclear Regulatory Commission (NRC) regulations in Title 10 of the Code of Federal Regulations (CFR) Parts 40 and 150. We discussed our review of the regulations with Ryan Schierman on October 11, 2016.

As a result of our review, we have nine comments that have been identified in the enclosure. Please note that we have limited our review to regulations required for compatibility and/or health and safety. Under our current procedure, a finding that the Wyoming regulations meet the compatibility and health and safety categories of the equivalent NRC regulation may only be made based on a review of the final Wyoming regulations. However, we have determined that if your proposed regulations were adopted, incorporating our comments and without other significant change, they would meet the compatibility and health and safety categories established in the Office of Nuclear Material Safety and Safeguards (NMSS) Procedure SA-200, "Compatibility Categories and Health and Safety Identification for NRC Regulations and Other Program Elements."

We request that when the proposed regulations are adopted and published as final regulations, a copy of the "as published" regulations be provided to us for review. As requested in NMSS Procedure SA-201, "Review of State Regulatory Requirements," please highlight the final changes, and provide a copy to Division of Material Safety, State, Tribal, and Rulemaking Programs, NMSS.

The State Regulation Status (SRS) Data Sheet summarizes our knowledge of the status of Wyoming regulations, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the NMSS State Communication Portal:
