According to NRC Management Directive 5.3, “It is the policy of the U.S. Nuclear Regulatory Commission to provide Agreement State programs the opportunity for early and substantive involvement in the development or formulation of any rule, policy, directive or guidance document, as well as participation in any special study or other NRC activity...” In alignment with this policy, the NRC includes Agreement State representatives in many working groups which enhance the partnership between the NRC and the Agreement States, facilitate the utilization of expertise that exists in the Agreement States, and support the National Materials Program. The purpose of this document is to provide a complete and concise list of the NRC working groups that field participants from the Agreement States.

| Common Prioritization of Rulemaking (CPR) Working Group | **Charter:** ADAMS Accession No. ML103370593  
**Purpose:** The CPR uses the methodology based on the two NRC strategic goals of safety and security, and it also considers factors for internal and external influences. The methodology requires the selection of a primary and a secondary strategic goal that the rulemaking is intended to support and the selection of the rulemaking activity’s level of contribution—high, medium, or low—to accomplishing those goals. The FY20/FY21 prioritization methodology has been revised to consider the 2018-2022 Strategic Plan. | Jill Shepherd-Vladimir, NRC/NMSS  
Jennifer Goodman, OAS/New Jersey                                                                                                                                                                                                                                                                                                           |
| Working Group on Implementation of 10 CFR Part 37       | **Charter:** ADAMS Accession No. ML13218B332  
**Purpose:** The Working Group (WG) on Implementation of Part 37 considers and decides on the actions necessary to put Part 37 into practice and recommends their incorporation into plans and schedules for action by NRC and Agreement States.                                                                                   | **Steering Committee:**  
Sabrina Atack, NRC/NMSS Co-Chair  
Lee Cox, OAS/North Carolina Co-Chair  
**WG Members:**  
Paul Goldberg, NRC/NMSS Co-Chair  
Brandon Juran, OAS/Minnesota Co-Chair  
Stephen James, OAS/Ohio  
Daavid Reindl, OAS/Wisconsin |

| NUREG-1556 Series Update Project Working Group Steering Committee                  | **Charter:** ADAMS Accession No. ML13101A114 (which is used as the basis for all NUREG 1556 Volume WGs)  
**Purpose:** To update licensing guidance provided in the NUREG-1556 series by incorporating requirements for the security of licensed material, removing information that warrants protection from the guidance, and updating the guidance to reflect regulatory and procedural changes that have occurred since the documents were last published. | Hipolito Gonzalez, NRC/NMSS Chair                                                                                                                  |
| NUREG-1556 Volume 9, Medical Use Licenses Working Group                            | **Purpose:** To review and update the technical content of NUREG-1556 Volume 9, Program-Specific Guidance About Medical Use Licenses.                                                                                         | Katie Tapp, NRC/NMSS Team Leader                                                                                                                 |
| 10 CFR Part 61 – Site Specific Analysis Working Group                             | **Purpose:** To amend 10 CFR Part 61 regulations to require low-level radioactive waste disposal facilities to conduct site-specific analyses to demonstrate compliance with performance objectives in Part 61. These analyses would also identify any additional measures that would enhance adequate protection of public health and safety. The NRC is also proposing additional changes to the current regulations to facilitate implementation, and better align the requirements with current health and safety standards. | Gary Comfort, NRC/NMSS Team Leader  
Mark Yeager, OAS/South Carolina  
Hans Weger, OAS/Texas

| Licensing of a New Technetium-99m Production Generator   | **Charter:** ADAMS Accession No. ML14304A347  
**Purpose:** To evaluate the need to develop licensing guidance for the RadioGenix™ system (functionally known as TechneGen Generating System), a new technetium-99m (Tc-99m) generator developed by NorthStar Medical Radioisotopes, LLC (NorthStar). | Donna-Beth Howe, NRC/NMSS Co-Chair  
Mark Paulson, OAS/Wisconsin Co-Chair  
Elaine Crescenzi, OAS/Pennsylvania  
Karl Von Ahn, OAS/Texas |
| Working Group on Yttrium-90 Microsphere Brachytherapy Licensing Guidance | **Charter:** ADAMS Accession No. ML15355A202  
**Purpose:** To evaluate recommendations from the Advisory Committee on the Medical Uses of Isotopes (ACMUI) and NRC staff and to revise the licensing guidance for yttrium-90 (Y-90) microsphere brachytherapy, if needed. | Katie Tapp, NRC/NMSS Chair  
Victor Diaz, OAS/New Mexico |
| Xcision Gammapod & MASEP Infini Gamma Stereotactic Radiosurgery Working Group | **Charter:** ADAMS Accession No. <in development>  
**Purpose:** To develop licensing guidance for two novel gamma stereotactic systems, the Xcision GammaPod Model A and MASEP Infini. | Katie Tapp, NRC/NMSS Co-Chair  
Tristan Hay, OAS/Washington Co-Chair  
Rejina Alam, OAS/New York City

| Comprehensive Update to Regulatory Guide 8.39, “Release of Patients Administered Radioactive Materials” | **Charter:** ADAMS Accession No. ML18129A423  
**Purpose:** To comprehensively update the NRC’s patient release guidance in Regulatory Guide 8.39 “Release of Patients Administered Radioactive Material” (RG 8.39) to reflect the most up-to-date scientific published patient release data. The updates will include incorporation of guidance currently provided in generic communications, as well as updates to the equations and methodologies described in the NRC’s guidance for calculating dose to members of the public from released patients. | Said Daibes, NRC/NMSS Co-Chair  
Augustinus Ong, OAS/New Hampshire Co-Chair  
Charma Waring, OAS/Rhode Island  
Rejina Alam, OAS/New York City  
Jack Priest, OAS/Massachusetts |
| Joint NRC/Agreement State Phase Two Materials Inspection Program Working Group | **Charter:** ADAMS Accession No. ML18164A335  
**Purpose:** To continue the efforts started in Phase One of the Materials Inspection Program Working Group (WG) that addressed Item 110 of Enclosure 1 of the SECY-16-0009, “Recommendations Resulting from the Integrated Prioritization and Re-baselining of Agency Activities.” Phase Two of the WG will conduct a more comprehensive evaluation of the NRC’s materials inspection program and to recommend and/or implement changes to the program. | Aaron McCraw, NRC/Region III Co-Chair  
Augustinus Ong, OAS/New Hampshire Co-Chair  
Beth Schilke, OAS/Virginia  
Brian Goretzki, OAS/Arizona |
