

# NRC & Agreement State Working Groups

*June 1, 2022*

According to NRC Management Directive 5.3, “It is the policy of the U.S. Nuclear Regulatory Commission to provide Agreement State programs the opportunity for early and substantive involvement in the development or formulation of any rule, policy, directive or guidance document, as well as participation in any special study or other NRC activity...” In alignment with this policy, the NRC includes Agreement State representatives in many working groups which enhance the partnership between the NRC and the Agreement States, facilitate the utilization of expertise that exists in the Agreement States, and support the National Materials Program. The purpose of this document is to provide a complete and concise list of the NRC working groups that field participants from the Agreement States.

<p>Common Prioritization of Rulemaking (CPR) Working Group</p>	<p><b>Charter:</b> ADAMS Accession No. ML18263A070</p> <p><b>Purpose:</b> The CPR uses the methodology based on the two NRC strategic goals of safety and security, and it also considers factors for internal and external influences. The methodology requires the selection of a primary and a secondary strategic goal that the rulemaking is intended to support and the selection of the rulemaking activity's level of contribution—high, medium, or low— to accomplishing those goals. The prioritization methodology has been revised to consider the 2018-2022 Strategic Plan.</p>	<p>Alexa Sieracki, NRC/NMSS</p> <p>Elizabeth McCaskill, OAS/Oklahoma</p>
